Our first registration day was held last Friday and we have another scheduled for this Friday September 2nd. We have put our season start back a week to Saturday September 17th. This was done in an effort to separate the end of the football season from the start of the Little Athletics season so that we have adequate time to prepare the track. Just another challenging aspect associated with a shared facility. We will be running on Saturday mornings until daylight saving commences. The centre will move to Friday afternoons as of October 21st.

Pre-season working bees have been scheduled at the Kiama Sports Complex for Saturday September 3rd and 10th. We are anticipating good attendance on both days. As usual the relocatable fence and football dugouts will provide the biggest challenge.
